# Welcome to the Sale...

On behalf of the Nicholson and Schlenker families, we'd like to welcome you to this inaugural event! We couldn't be more excited about this female offering and the opportunities it offers to our fellow Simmental breeders. As you page through this catalog we hope to not only catch your attention, but make you take a second look at the caliber of females that will be in Napoleon on November 14th. There are generations of our top cow families and even those top donor cows themselves that will sell! Over a dozen proven donors will be offered, with another dozen plus donor prospects, along with many hard working young females that will flat out get the job done. Our operations have worked extremely hard to not only put together complete, well balanced phenotypes, but breed leading EPD profiles to go along with it. Much emphasis has also been placed on breeding Simmental cattle with high carcass traits, without sacrificing overall balance or the very basics like foot and udder quality. We sure hope you enjoy evaluating the offering as we truly feel there is something for everyone! Feel free to call any of us with questions. See you on the 14th!

## **ANNOUNCEMENTS**

Please register for a bidding number sale day. When registering for a bidding number, please give the office staff your current ASA number for transferring registration papers. All animals listed in the catalog with DNA tests for Polled and Coat Color and pregnancy ultrasounds are done to the best of our knowledge. We are not liable for any inaccuracies.

## **TRUCKING**

Woolsey Trucking 406-670-1877  
Lathrop Trucking 847-426-5009

## **HAULING**

All animals become the responsibility of the buyer after the sale and transportation of purchases will be at buyers expense. We will gladly assist in coordinating hauling arrangements.

## **TERMS AND CONDITIONS**

Terms of sale are cash or check. Every animal will be sold to the highest bidder. Announcements made sale day take precedence over printed material in this catalog. All cattle sell under the terms and conditions of the American Simmental Association.

## **GUARANTEES**

All breeding age females have been ultrasounded with due dates and sex of the calves are printed as known. Open females are guaranteed to be breeders.

## **ACCOMMODATIONS**

Mozy Inn 701-754-2451  
800 Broadway, Napoleon, ND 701-754-2420

Cobblestone Inn 701-475-4478  
623 North Mitchell Ave, Steele, ND

## **SALE DAY LUNCH**

A complimentary meal will be served upstairs at the sale facility from 11:00 AM - 12:45 PM.

**SALE MANAGEMENT**

Marty Ropp 406-581-7835  
[www.alliedgeneticresources.com](http://www.alliedgeneticresources.com)

Get ready for something new and special for the fall of 2017! The Nicholson and Schlenker Families are joining forces and offering some of the very best females they have ever parted with. This catalog not only showcases the wonderful breeding pieces available, but it is your personal invitation to be with us Nov. 14 at Napoleon Livestock. Rarely will you find this many donors and potential donors packed into one offering. Females that have already proven themselves as profit producers now offered for someone else to benefit from in the future. Young heifers and cows with every bit as much potential as the past generations are also on the event and I can promise you will be impressed. This is one set of females where the best one isn't necessarily in the first 5 lots. You will find front end genetics with great value all the way through the catalog.

These programs have built a tremendous reputation for red Simmental genetics including the production of some of the most influential AI sires of the past 20 years. Among this female offering you will also find some of the best black genetics available this or any year as well. Take particular notice of some of the black females that carry unique, red pedigrees. They will be worth checking out.

The cattle will impress, the genetic values are all there and the herds backing up the offering are as solid as the females they are selling. Give me or any of the folks involved in the sale a call with any questions you may have or in case you can't be with us at Napoleon. Otherwise plan to make the trip and we will see you there!

Sincerely,  
Marty Ropp

AI bred to WS RED MOON D76 (3115609). PE to KBHR NIGHTWATCH (3047465). Safe to AI and due 2/15/2018. Confirmed bull calf.

GENOMIC ENHANCED EPDS. W37 is the only full sister of Beef Maker to ever be born. She has been the biggest dollar producing female on the farm. Her sons, WS All Aboard and WS Courageous, both topped our bull sales in 2015 & 2016. They are breed changing bulls. Her daughters are collectively a great groups of young cows. Don't miss the ones selling in this sale! Only one other daughter has been sold before, and she is a donor at Gibbs Farms, AL. Disposition is excellent on her and her offspring. The bull calf she is carrying could be another great one.

**WS ALL ABOARD B80** Son of Lot 1.

GENOMIC ENHANCED EPDS. 36U has been a cornerstone donor for us and we are confident in her ability to have an equally positive impact within her new owner's program. She is a prolific embryo producer and will impress you with her foot quality and sound udder for a "U" model cow. Her overall style and power is a hard combination to find. She's the type of cow that is appreciated by all facets of the industry and has progeny scattered across the US. 36U will be worth the investment and you'll enjoy owning and working with her just like we have.

Sells open.

GENOMIC ENHANCED EPDS. This little cow is affectionately known as "the Brown cow" around the ranch and was the high selling SimAngus female in the RAB dispersal sale. The 701T daughters are highly productive females and Y9205 is one of the very best of them. She's always a favorite of visitors and is admired for her attractive type and perfect udder and foot structure. Her breed leading indexes and ability to pass on her easy keeping moderate type make her a donor you'll want to look up sale day! Her grandsons, CDI Prime Example 310D and CDI Big Time 297D were both high selling red bulls in last years sale and she's left us with beautiful daughters to carry on her legacy. Sells with a fall CDI Ambition bull calf at side.

CDI IRENE 1B Daughter of Lot 5 and sells as Lot 3.

CDI PRIME EXAMPLE 310D Grandson of Lot 5.

AI bred to WS RED MOON D76 (3115609). PE to CDI VERDICT (2641380). Safe to AI and due 3/3/2018. Confirmed bull calf.

GENOMIC ENHANCED EPDS. Along with Beef Maker's dam, 87U has been the best purchase I've ever made. She is the dam of ABS' WS Prime Beef, Accelerated Genetic's WS Zenith, and Grandam to Allied's WS Outcross. She flushed very well as a young cow, but not so much in her later years. However, she's proven to be a big time producer through IVF, where we have been able to double mate her on some collections. Conception has also been high on these embryos. Daughters are beautifully uddered, and most of her offspring are dark red. Her pedigree allows a broad amount of mating flexibility. She may be remembered as Big Sky's best daughter.

WS RED MOON D76 Service sire of Lot 6.

AI bred to CDI AMBITION 255C (2976771). PE to KBHR ALL TOGETHER D227 (3169934). Safe to AI and due Due 3-11-18. Confirmed bull calf.

We wanted to offer a young donor prospect that we felt had big time potential for the future. 98C comes from the very successful 68U-141M donor line and is a perfect example of how good we expect the CDI Perspective daughters to be. Perfect udder, perfect foot, and as dark red as you can make one. Her first calf weaned off as a top indexing replacement heifer and she's bred back to Ambition with a bull calf! We've successfully IVF'd 98C and all the guesswork is taken out, she's ready to move forward as a lead donor for her new owner.

GENOMIC ENHANCED EPDS. I could write a book on the impact of 110U in our herd. She has had three sons working in registered herds, CDI Vegas 26X (Bichler Simmentals), CDI Silhouette 282C (C Diamond Ranch), and CDI Northland 274C (Kenner Simmental). Her daughters are just as good, with two working in our donor herd. She is a deep bodied, massive middled cow that has a very good udder. She IVF flushes extremely well. 110U is the grandam to 44C. She is safe to AI with a CDI Mainline heifer.

## 9A FIVE FROZEN EMBRYOS

*Offered by C Diamond Simmentals*

Recip: WS Miss Hi-Class C3-Hetero Polled- ASA#: 2974605 This recip cow is a high milking, fertile, young female with a perfect udder and a great disposition. As a first calver this year, her heifer calf indexed 108 for WW. She is carrying a red ET bull out of our best Verdict daughter who in addition is DD free! You will have a hard time finding another set of projected EPDs like this, particularly with the BW to WW spread on a red mating! I would expect this boy to be a heavy muscled, moderate framed bull in a calving ease package, stacked for carcass! Bull calf will be non-diluted and PP.

This heifer is certainly one of our best. She is a front pasture female with an EPD profile, performance and a proven cow family you can count on. Phenotypically outstanding, she may be one for the show ring. Dam is a beautifully uddered cow with indexes of 99, 107, 113, 122, & 105 for CE through REA on her calves. Her first calf was the high selling black bull in our 2016 sale. Grandam is a top producing High Roller daughter who has raised several top-selling bulls and females for us and has another great calf again this year.

52E is a perfect example of why the Main Event cattle have quickly gained quite the following. She's got as much power and style that you could ask for in a soft moving, sound structured package. Main Event really produces high quality, front end progeny in the both the bull and heifer pens. Be sure to look up this female's video, you won't be disappointed.

**LCDR MS EDITH 47E Sells as Lot 28.**

We wanted Marty to pick a heifer for the sale and 47E was his final choice! 47E is a great example of why the Ambition calves will be extremely popular this fall and spring. Super performance and power but still in a smooth, stylish package. 40Y is a direct daughter of 68U and the dam of CDI North Dakota, our high selling bull a few years ago. This heifer is loaded with all our best red donors stacked throughout her pedigree. Expect her to make your donor pen in the future.

**HOOK'S UNION 68U**  
Maternal grandam of Lot 28.

### CDI MISS MAKERS MARK 10E Sells as Lot 30.

GENOMIC ENHANCED EPDS. 10E is a heterozygous black, blazed face Maker's Mark daughter out of our reliable 2S Gunner cow. Her flush brothers are outstanding and we are extremely excited about the potential this mating brings. 10E is a flashy donor prospect.

GENOMIC ENHANCED EPDS. 28E is a soggy made CDI Ambition ET daughter that comes out of a great uddered Beef King daughter. Her overall power and phenotype is what we've come to expect out of CDI Ambition 255C. Her ET siblings are just as impressive.

CDI MISS AMBITION 28E Sells as Lot 31.

AI bred to CDI ACE (2852783). PE to CDI BEDROCK (3027249). Safe to AI and due 1/26/2018. Confirmed bull calf.

This heifer is definitely donor quality. Her dam is one of my favorite Beef King daughters. Her calves have 105 & 107 ratios for BW & WW. She's a full sister to WS Belle O the Ball, a donor at Trauernicht Simmentals in NE. This heifer is a show off, with most of her EPDs ranking in the top 20% of the breed. Her mating to Ace is a second generation outcross. With all that this girl has to offer, she's as good as gold.

WS DIVINE D154 Sells as Lot 43.

CDI MISS POWER GRID 31D Sells as Lot 44.

*AI bred to WS RED MOON (3115609). PE to CDI BEDROCK (3027249). Safe to AI and due 1/18/2018. Confirmed heifer calf.*

We all know how good the Xpection daughters are and this girl is no exception. Calving ease, maternal, and carcass traits, all in one attractive package. Dam was our highest marbling heifer as a calf and passes it along very well. Another exciting mating with Red Moon.

**HOOK'S EXPECTATION 36X** *Sire of Lot 58.*

**WS MISS DOUBLE TAKE D185** *Sells as Lot 59.*

*PE to KBHR NIGHTWATCH (3047465). Safe to PE and due 3/2/2018.*

*Maternal sister and dam of Lot 59.*

An exquisite heifer with all the power that you could possibly want bred in. Her performance and carcass indexes are hard to beat. You won't find too many individuals with the combination of these power EPDs and a 152 API. Dam is as classy as they come and is working her way into the donor pen. She is also the dam of our black Herd Sire, WS CEO. This mating with Nightwatch should be the perfect match. He tones down birthweight, and adds rib and muscle.

AI bred to HOOK'S BEACON (2854180). PE to KBHR NIGHTWATCH (3047465). Safe to AI and due 1/20/2018. Confirmed heifer calf.

I didn't take lightly the sale of these ET sisters. We had a nice flush most of which turned out to be heifers born both 2016 and '17. Get in on the opportunity to buy an outcross to most blacks with a great disposition! I feel that the Prime Time daughters are going to be terrific cows. Udders, marbling and moderate BW are strengths in this cow family. The EPDs on this mating are awesome! The two Beacon heifer calves coming out of these girls will be a mainstay in anyone's herd!

PE to KBHR NIGHTWATCH (3047465). Safe to PE and due 2/17/2018. Confirmed heifer calf.

A high-performing heifer with top of the breed WW & YW EPDs. Pedigree goes back to one of the most beautiful Shear Force daughters to ever walk on our farm. Her mating with Nighthwatch should really click. We had a lot of progeny out of him this year and we really like them. This heifer got missed as a calf for her Homo Black test, but we will know by sale day.

PE to ELLINGSON BEEF KING (3182418). Safe to PE and due 3/18/2018. Confirmed heifer calf.

This little lady may not stand out in the pen but her first calf was number 1 of 125 contemporaries with a 132 BW ratio from a 57 lb actual and he still adjusted over 700 lbs WW! She is one of our smallest framed "C" heifers, has a ton of milk and is clean fronted. Her IMF ratio was a 122 with only a 100 on BF! The entire cow family has treated us very well, being highly fertile and maternal. Also, her lineage goes back to the mother of the donor cow Tiara, Lot 7, who was here until she was 15. If you're looking for high efficiency, don't miss out on this one!

PE to CDI VERDICT (2641380). Safe to PE and due 3/24/2018. Confirmed bull calf.

Auburn is a great example of a typical Beef King daughter; clean made, long bodied, wide butted, free moving and perfect feet and legs. Standing out in the top 1%/5% for WW/YW, she weaned off a full brother to the Verdict bull she's pregnant with who had a WW index of 104. Her mother was in the herd until she was 11, with a solid WW index of 105 on 8 calves and raised top end ET calves in her later years.

AI bred to CDI ABUNDANCE (2977075). PE to KBHR ULTIMATE (2815311). Safe to AI and due 3/4/2018. Confirmed heifer calf.

This cow is one of my favorite young females. She raised one of our best Abundance bull calves this year. Her red Ultimate daughter is donor quality and has one of our best calves in the bull pen. She also passes along her explosive carcass traits, boasting an IMF index of 115 on her calves. Young Beef Maker daughters are getting hard to find. Don't pass this one up.
