BREEDING FOR THE FUTURE

WEDNESDAY

FEBRUARY 10TH, 2016 - 1PM

NAPOLEON LIVESTOCK, NAPOLEON, ND

WELCOME TO THE BREEDING FOR THE FUTURE'S 18TH ANNUAL PRODUCTION SALE!

Greetings!

Welcome to our 18th annual Breeding for the Future sale! We are grateful for the trust that all of our past customers have placed in us which have made our sale successful. We also welcome those of you who are new to our program.

This year's sale brings about a huge change from past years, C Diamond Simmentals will no longer be selling with us. Since 2007, we have had the pleasure of co-hosting this sale with the Nicholson Family. But as both of our programs and partners in each family have increased, we decided that each of us would have separate sales. Wilkinson Farms Simmentals will host our sale at Napoleon, while C Diamond will be having a sale at their ranch. Our family has been extremely enriched by the bonds of love, respect, friendship and partnerships we've established, working with the Nicholson family during these years. We expect that those bonds will continue to grow in the future and pray for God's richest blessings upon their growing family and operation.

Regarding this year's sale, we have put together a stout set of bulls for your consideration, gaining in the 3.0 – 3.5 lbs. /day range. While we've been known for good red bulls, this year we also have the best set of black bulls we've ever offered, along with a small set of powerful, half-blood SimAngus in the sale.

Additionally, we've diversified this sale by adding a pick of our 2015 Open Heifers, which consist of approximately 110 from which to choose. Included are 29 ET heifers with several out of WS All Aboard's dam and the dam of WS Belle of the Ball (our top-selling bred heifer in 2014), who is now a Donor for Trauernicht Simmentals. We will offer heifer pregnancies out of these two Donors, as well. There will be embryo packages from HSF Miss Sky, who is the dam of WS Prime Beef and WS Zenith. We will also be selling 20 bred cows, including some of donor quality and a dispersal of our daughter, Makayla's small herd.

Prior to the sale, you are invited to visit our ranch to view any of the sale offering and their cow families. Please join us sale day for a hearty meal upstairs at Napoleon Livestock. We present as much information as possible, but if we can answer any questions, please contact us.

Gratefully,
Terry Schlenker Family

FR L TO R: Aaron, Randi, Garnet, Cassia, Grandpa Elroy, Terry, Makayla & David Ross, Cathy, Monica, Amber, Jenna (holding Baby Adelaide), & Jared (holding Oakley).

ANNOUNCEMENTS

Please register for a bidding number in the office, prior to the sale!

- Announcements made sale day and from the auction block during the sale, take precedence over printed material associated with this sale.
- **Wilkinson Farms Simmentals retains 50% semen interest on every bull in the 2016 offering, unless otherwise stated in the individual comments or from the sale block. If semen sales are made, the new bull owner will receive payment for sold semen on their bull after expenses are covered. We reserve the right to charge sales fees for semen sold on said bull. The action of purchasing a bull from Wilkinson Farms Simmentals by auction, or on the farm, will assume buyer agrees to these terms. The above listed terms are negotiable, but must be agreed upon verbally or in writing, no later than 2 hours prior to the sale. Please contact us as soon as possible, to make arrangements.**
- All cattle sell under the terms and conditions of the American Simmental Association.
- -Any cattle going to CANADA will be delivered to the nearest ND/CAN border crossing facility. These cattle will be tested and cleared for export for a \$100/head fee.
- We will not be responsible for death or injury. We highly recommend that you insure your bulls on sale day, if they are to go back to our ranch.
- **Females:** All buyers of females will be responsible for them after the sale. We will help to coordinate hauling arrangements, if needed.

"Like" **Wilkinson Farms Simmentals** for updates on our sale, and ranch activities throughout the year.

BREEDING FOR THE FUTURE ADVANTAGE

- Feed bulls until April 1st. After April 1st, we will charge \$2/day for each animal.
- Test all bulls and **guarantee** their soundness at delivery.
- Free bull delivery up to 200 miles.
- We ultrasound **all bulls** and **all replacement females**.
- Wilkinson Farms now has data for their entire herd with 17 years of ultrasound history.

Directions to Wilkinson Farms Simmentals

From I94 – Exit 248 (Oil tanks), follow paved frontage road west 1 mile. Turn left (south) 13 miles (last 2 miles gravel). Take a left (east) 3 ½ miles. . Hwy 281 – Turn west at Montpelier sign. 6 ½ miles west on gravel. From Gackle: East to 76 Ave. SE. Turn north, go 5 miles & ½ mile east.

We encourage farm visits, at your convenience. Come to view our sale offering at the Ranch and get a \$100 discount off of a Sale Day Purchase [BULLS ONLY]. We hope to see many of you!

A delicious & hearty noon meal is served sale day, upstairs 11:00am –12:55pm

...from generation to generation.*

Daniel 4:3

On January 22nd 2015, Adelaide Paisley Schlenker was born to Jared & Jenna!

Sibling picture: Oakley (3) & Adelaide (1) Schlenker, July 2015. Oakley will be 3 years old on sale day!

David & Makayla Ross got married July 31st 2015! They are pleased to announce the upcoming arrival of their baby girl! Due May, 2016

Reunited with former ASA Field Rep and good friends, Keith (Sundance) & JoAnn Ruff at Jordan & Susan's wedding!

Jordan & Susan Schlenker tied the knot on November 8th, 2015!

Grandma Millie Wilkinson celebrated her 95th Birthday in May, 2015! All her Schlenker grandchildren were home for the occasion!

Aaron & Randi Schlenker are excitedly awaiting the birth of their baby boy! Due in March, 2016.

REFERENCE SIRES

WS BEEF KING W107 Beef King is easily the best and most consistent bull we've ever used. From calving, tremendous growth, carcass, and good uddered cows, he does it all. He is 7 years old now, and running out with the cows in the field. He looks and moves like a two year old.

GW-WBF SUBSTANCE 820Y We used Substance as an outcross Black Sire, because we could use him on almost any cow. His EPD profile reads like a dream, and his calves have not disappointed. Can't wait to calve daughters.

WS PRIME BEEF Z8 He has done two it two years in a row. Breed leading calving ease and birthweight to breed leading growth. Unheard birth to yearling spread of -1.5 to 114. We can't wait to calve his daughters.

CDI VERDICT 220Y Verdict is the bull to bring down birth weight, frame and add fleshing ability, and beautiful udders. He is easily the highest red API bull in the breed. Semen available through Wilkinson Farms and C Diamond. DDC.

WS ALL AROUND Z35 All-Around's first calves were all we needed to know that this bull will sire the great ones. His EPD profile is about as good as it gets. Several sons sell in this sale.

WS PRIME TIME B6 Prime Time is probably the bull we've raised that has attracted the most interest ever. We have great expectations for his progeny. We are selling a handful of cows with his service in this sale. Semen available through Wilkinson Farms and C Diamond.

% RANK	20	20	20	20	20	20	10	30	50	10	55	25	5	4

BELOW IS A QUICK REFERENCE TO AN EXPLANATION OF EPD'S:

Expected Progeny Differences "EPD's" are the most accurate and effective tool available for comparing genetic levels. In using the EPD differences between two sires EPD's represents the unit difference expected in the performance of their progeny. (Listed below are the units ASA EPD's are expressed in).

(Average EPD's are on the bottom of the percentile table above)

Calving Ease (CE) percentage of unassisted births when used on heifers.

Birth Weight (BW) pounds of birth weight.

Weaning Weight (WW) pounds of weaning weight.

Yearling Weight (YW) pounds of yearling weight.

Maternal Calving Ease (MCE) percentage of unassisted births in first-calving daughters.

Maternal Milk (MM) pounds of weaning weight due to milk.

Maternal Weaning Weight (MWW) pounds of weaning weight due to milk and growth.

Stayability (Stay) percent of daughters remaining in the cowherd at 6 years of age.

Carcass Weight (CW) pounds of carcass weight.

Yield Grade (YG) yield grade score.

Yield grade is an indication of the yield of red meat within a carcass. It is calculated by using several factors including 1) fat thickness, 2)

kidney, pelvic and heart fat. 3) hot carcass weight 4) rib eye area. A (-) EPD is better.

Marbling (MRB) marbling score.

Indexes: The last two columns in the EPD section are fairly new to the Simmental breed, but interesting, they are \$ indexes. Though EPD's allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes blend EPD's & economics to estimate an animal's overall impact on your bottom line.

All Purpose Index: (API) It is exactly what it says, all purpose.

This index includes every trait that can be calculated: calving ease, pounds at weaning and yearling, keeping replacements back, milking ability and stayability, then the calf crop. It took into consideration, some being retained as replacements, then the rest being fed out and sold grade and yield.

Terminal Index (TI): This index is to be used if all calves are going to a feedlot. It evaluates a sire only for use on mature cows with all calves put on feed and sold grade and yield. No other factors were figured in.

Using API and TI: First determine which index to use. If you're breeding heifers and keeping replacements, use API. If all calves are going to the feedlot and finished, use TI.

Homo Polled (Homo Black test pending). This guy was the first calf born out of our homo black herd sire KBHR First Class, who was the high selling bull at Keller Broken Heart Ranch's sale in 2014. We really like these calves. This guy was born out of a first calf heifer who comes right out of Beef King's cow family. He would work great on a set of young cows, and will add depth and muscle.

Homo Polled & Homo Black. Here's a bull who really put it all together. Ranks in the top 1% or 2% of the breed in 10 different EPDs. I haven't seen too many growth bulls with top 1% marbling, as well. He is bigger framed and should really prop up a set of cows who need a boost.

Homo Polled (Homo Black test pending). He was born unassisted out of a first calf heifer. These are the calves I like. They have explosive weaning growth, and mature early into a moderate, meat machine. I would expect his calves to do well on the rail, too.

Homo Polled & DDF. A Verdict son who should raise some easy fleshing, eye catching cattle. These Verdict sons are impressive, with their natural thickness and moderate, yet attractive frame size. Granddam is still producing and has been flushed.

Homo Polled & DDC. This Verdict son just exploded this summer and blew away his pasture mates. A 114 weaning index is almost unheard of. He should sire calves with that early pop, who moderate into a nice frame size. His daughters should be outstanding. Granddam will be flushed this spring and great granddam is one of our main donor cows.

PICK OF 2015 OPEN HEIFERS

LOT 70

We are offering the pick of our open heifers. There are about 110 heifers to choose from, including 29 ET heifers. Also included are four 2014 fall born heifers for spring breeding. Birthdate range Jan 12th – March 28th.

There are several sisters to WS All Aboard, WS Belle O The Ball, & WS Nobility. Sires include the daughters of CLRS Grade A, who is a full brother to the ABS bull CLRS Austin. Daughters of GW Carry On, GW-WBF Substance, WS Beef King, WS All-Around, WS Prime Beef, WS Transformer, Hooks Yellowstone, KBHR First Class, & KBHR Ultimate, are in this group. There are four red Transformer daughters, who are natural calves from four of our donor cows, and any of them would be a complete red outcross.

We will provide a spreadsheet with all the heifers to anyone who is interested. Pick must be completed by April 1st 2016. Wilkison Farms will retain a flush, or split IVF flushes with the new owner. Call for more details.

View the Auction Live!
Bid Online... you're ringside
right at your desk!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

WS CEO is a new Herd Sire prospect touting some impressive performance, maternal, and carcass EPDs. We've never had a bull with these carcass EPDs that can also put together the CE, growth, and maternal numbers that he possesses. In a search, he's the only purebred bull that has this high of marbling, and yield grade EPDs combined. Sire was purchased from Clear Springs Cattle Co. and was lost in his first breeding season. We only had eight calves, and no semen. All of his paternal siblings have scanned at least as well as he did for IMF. Dam is a beautifully uddered Hot Beef daughter who scanned well herself, and is in the top 1% for IMF, and maternal as well. Granddam has a 108 WW index. The maternal side is rock solid. A lot of mating flexibility exists with him, also. We hope to have semen available this spring!
