Welcome to

BREEDING FOR THE FUTURE'S 19TH ANNUAL PRODUCTION SALE!

This year brings about a big change for us. We are moving our sale location closer to home. The sale will be held on Wednesday, February 8th, 2017 at 1:00 pm CST at the C-B Sale Facility, just 4 miles south of our ranch. The sale will be a video auction. No animals will walk through the ring. If this is new to you, please contact us for details or with questions.

There is a lot of anticipation surrounding the bulls we have this year. Among the bulls are several sons out of new young sires that were used in our breeding program. They are exciting! Included in these new genetics are several outcross bloodlines. We are constantly searching for new pedigrees that will maintain or improve on our breeding philosophy. We trust that you will find them to your liking. This sale offering has been picked-through several times, to bring nothing but quality, to the sale block.

The bulls have done well, although gains have slowed down with the excessive winter weather the past month. As always, we put emphasis on balanced traits overall, with many of our bulls in the top of the breed for CE, growth, maternal and carcass. This is evident by our average API number which is 152.

As producers, we all feel the squeeze of the cattle markets. This may be a time when you are able to add value by buying a better bull. This market will turn around, as it always does. The bulls you add today, will really pay off when that time comes.

New this year, we'll be selling 35 bred heifers **right off the farm**. Many bred to some of the same sires represented in our pedigrees in this sale. Refer to the back page for details.

Visitors are welcome & encouraged to view cattle prior to the sale. We continue to offer \$100 off on a bull purchase if you visit the ranch. Feel free to contact us for further information.

Cattle will be on display at the C-B Sale location, Tuesday afternoon.

*****Sale morning, Breakfast Burritos & refreshments will be served from 9:15am – 10:30am. A hearty noon meal will be served from 11:15am – 12:45pm.*****

Refer to the map on page 4 for directions to our ranch and C-B Sale Facility. Due to the road conditions this year, we recommend coming to our ranch from Hwy 281 6 ½ miles west on 49th St. SE & north up our driveway. On sale day, go 13 miles east of Gackle on ND Hwy 46 to 76th Ave, SE. OR 7 ½ miles west of the Junction of Hwy 281 & Hwy 46, north ¾ of a mile & turn right.

Gratefully,

Terry Schlenker & Family

Left to Right...Standing: Micah, Ethan, Cassia, Jordan, Susan, Aaron (holding Dawson), Randi, Makayla (holding Neva), David, Jared (holding Adelaide), Amber, Mike, Monica, Simeon, & Garnet.
Left to right...Seated: Grandpa Elroy, Terry (holding Oakley), & Cathy.

ANNOUNCEMENTS

Please register for a bidding number prior to the sale!

- Announcements made sale day and from the auction block during the sale, take precedence over printed material associated with this sale.
- Wilkinson Farms Simmentals retains 1/3 semen interest on every bull in the 2017 offering, unless otherwise stated in the individual comments or from the sale block. If semen sales are made, the new bull owner will receive payment for sold semen on their bull after expenses are covered. We reserve the right to charge sales fees/expenses for semen sold on said bull. The action of purchasing a bull from Wilkinson Farms Simmentals by auction, or on the farm, will assume buyer agrees to these terms. The above listed terms are negotiable, but must be agreed upon verbally or in writing, no later than 2 hours prior to the sale. Please contact us as soon as possible, to make arrangements.
- All cattle sell under the terms and conditions of the American Simmental Association.
- -Any cattle going to CANADA will be delivered to the nearest ND/CAN border crossing facility. All costs for testing & export are the responsibility of the buyer.
- Animal injuries or death are the responsibility of the new owners. We **highly recommend** that you insure your bulls on sale day. Insurance reps will be available at the sale.

LIABILITY

Any person attending the sale does so at his/her own risk. Neither the sale management, owners, sale facility owners nor any person connected with this sale, assumes any liability, legal or otherwise.

New Sale Location

C-B Sale Facility

- *Refer to the map on page 4 for google map to our ranch and C-B Sale Facility. *
- **WFS Ranch:** Due to the road conditions this year, we recommend coming to our ranch from Hwy 281, turn west at the Montpelier sign 6 ½ miles on 49th St. SE, north ¼ mile & ¼ mile west up our driveway.
 - **C-B Sale Facility: On sale day:** From Gackle - 13 miles east on ND Hwy 46 to 76th Ave. SE & north ¼ mile. OR 7 ½ miles west of the Junction of Hwy 281 & Hwy 46, north ¼ mile & right to C-B.

BREEDING FOR THE FUTURE ADVANTAGE

- Feed bulls until April 1st. After April 1st, we will charge \$2/day for each animal.
- Test all bulls and **guarantee** their soundness at delivery.
- Free bull delivery within the state of ND and up to 200 miles from our ranch to SD & MN.
- We ultrasound **all bulls** and **all replacement females**.
- Wilkinson Farms now has data for their entire herd with **18 years** of ultrasound history.

*We encourage farm visits, at your convenience. Come to view our sale offering at the Ranch and get a **\$100 discount** off of a Sale Day Purchase [BULLS ONLY]. Offer not to be combined with any other discounts.*

We hope to see many of you at the ranch!

Breakfast Burritos & refreshments will be available after **9:15am**, for those coming early to view the cattle.

A hearty Noon Meal is served from **11:15am-12:45pm**

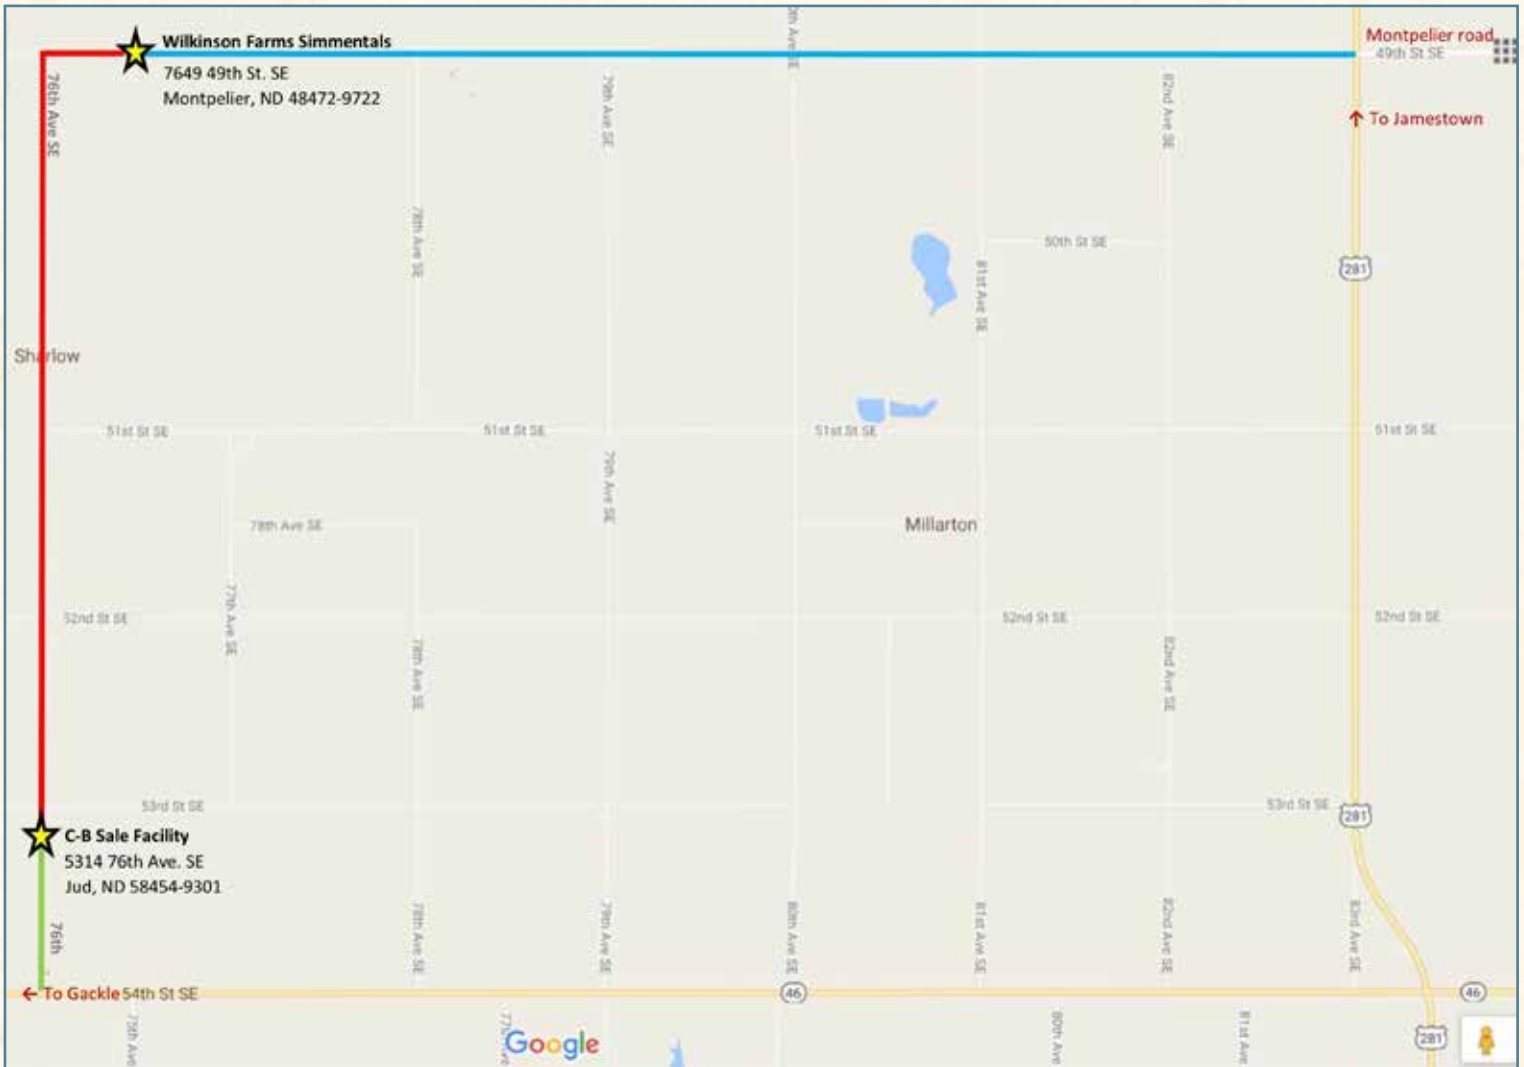

IN CASE OF STORMY WEATHER:

DVA Rep. Justin Dikoff (605) 290-0635 - email: jdikoff@dvauction.com
Please feel free to contact me with questions about the sale or to view the cattle for you.

Family Highlights

Dawson James was born to Aaron & Randi Schlenker on Feb. 3, 2016. Dawson became a big brother to Quinn Jameson on Jan. 13, 2017

Cassia & Micah attended Artificial Insemination School in April, 2016. This makes them the 6th & 7th certified AI technicians in the Schlenker family!

David & Makayla Ross welcomed Neva Noreen into the world on May 17, 2016. Their family resides near Owosso, MI where David was ordained as a minister in July, 2016.

Mike & Amber Michalak said "I do" on August 4, 2016. The happy couple has made their home in a suburb of Denver, CO.

Oakley & Adelaide Schlenker walked hand in hand down the aisle, and back up again, as ring bearer and flower girl at Amber & Mike's wedding.

Jordan & Susan Schlenker are excited to announce the upcoming arrival of their first baby! Due February 2017.

Wilkinson Farms invited their local customers to an informative producer meeting in November, 2016. We had a great turn out! Those in attendance were able to view cattle before enjoying a home cooked meal, which was then followed by presentations by Marty Ropp & Rocky Forseth from Allied Genetic Resources. We thank all of those who were able to come!

Allied Genetic Resources is entering its seventh year of service to our member owners and their commercial customers. Genetic consulting, feeder cattle and replacement female marketing, professional genetic procurement, sales management and a growing semen business are just a few of the customer focused services offered daily by the growing Allied staff. Genetic improvement and value adding service are what separates great seedstock producers from the rest. As the US beef business becomes more competitive and information based, the strength and reputation of your genetic provider will provide the competitive edge you need to stay to the front of the profit race.

Allied Genetics members now number more than 80 in total and in 2017 will market nearly 9000 profit bred bulls. Chosen for commitment to both their commercial customers and the beef business, these independent producers are absolutely industry leaders when it comes to providing value and focusing on the long term. Do the math, the genetics you purchase in 2017 will have substantial profit impacts on your herd well into the early 2030's. Make sure your genetics provider has that kind of impact in mind when they are building seedstock for you. If they reject technology, talk more about philosophy than substance and or don't stand behind their product the way you wish they would, talk to us or any Allied herd about better genetics purchasing for your future. To be confident in consistency and value just look for the Allied logo when you choose a genetics source. Allied by reputation focused on service. Allied Staff:

MARTY ROPP – Get the most profit possible from your genetics by contacting Marty and making a solid and practical plan for the future. 406-581-7835

CLINT BERRY – Get more for your calves this and every year. Contact Clint and his team of Superior Livestock Representatives for details and professional assistance. 417-844-1009

GARRETT THOMAS – Experienced, professional seedstock marketing service pays dividends. Call Garrett for opportunities and proven options. 936-714-4591

ANDREW CONLEY – Andrew brings years of commercial and genetics experience in the Southeast to our growing team. Call him for regional consulting and marketing solutions. 706-781-8656

ROCKY FORSETH – Genetics procurement should have the end in mind. Give Rocky a call to find the seedstock you need then stand behind you when it's time to capture the added value of their calves. 406-590-7984

Customer Testimony

"I spoke with Alden Fitterer, Turtle Lake, ND recently. He was taking a 9-year-old bull, (that he purchased from us), to the sale barn. Alden has been a good customer for many years. He buys some of the higher-quality bulls, but as you read in his comments, by the time he has to get rid of them, they sure don't owe him anything. Thanks, Alden & family!" ---Cathy Schlenker

"This bull we were talking about, was an 'N'. When we tested him last spring he still tested fine. The vet goes, 'Hey that's getting kind of old, isn't it?' I said, 'I don't know.' My daughter ... had her phone, so she googled it. It ended up that he was 13 years old! He was a good bull. There are a lot of guys that don't even have cows that old; They sell their cows when they hit 10. Out of all the 30 some years that I farmed, that was the first bull I've ever sold because he was old. I didn't have to use him because I had enough [bulls], other than that, I would have probably used him. His feet were good. It was one of those bulls that you never had to do anything with. He was calm, you never had to worry about him taking you. He was just a gentle bull.

This bull I am taking right now, is a 'W' ...If he wouldn't have gotten hurt, I actually would have had to take him in & had his feet worked on. His heels were starting to bother him. I don't know how many bulls I have bought from you over the years, but I'm sure it is close to 20, if not more. I figure one out of 20 or 25, isn't bad. There are guys that start taking bulls down when they are 2 years old. I normally don't buy bulls from people like that. They only get used 60 days out of the year, the rest of the time all they do is lay around & eat. They shouldn't get hurt.

I think your feeding program is just good. Usually, where it comes from is when the bulls are yearlings, or right off the cow, guys push them and they get long toes or other problems. I've had quite a few [of your bulls] over the years, ... they've been around at least 6 or 7 years.

OK, I'll see you, probably on the 8th!" ---Alden Fitterer January 16, 2017

Michelle, Alden & Connie Fitterer

BELOW IS A QUICK REFERENCE TO AN EXPLANATION OF EPD'S:

Expected Progeny Differences "EPD's" are the most accurate and effective tool available for comparing genetic levels. In using the EPD differences between two sires EPD's represents the unit difference expected in the performance of their progeny. (Listed below are the units ASA EPD's are expressed in).

(Average EPD's are on the bottom of the percentile table above)

Calving Ease (CE) percentage of unassisted births when used on heifers.

Birth Weight (BW) pounds of birth weight.

Weaning Weight (WW) pounds of weaning weight.

Yearling Weight (YW) pounds of yearling weight.

Maternal Calving Ease (MCE) percentage of unassisted births in first-calving daughters.

Maternal Milk (MM) pounds of weaning weight due to milk.

Maternal Weaning Weight (MWW) pounds of weaning weight due to milk and growth.

Stayability (Stay) percent of daughters remaining in the cowherd at 6 years of age.

Carcass Weight (CW) pounds of carcass weight.

Yield Grade (YG) yield grade score.

Yield grade is an indication of the yield of red meat within a carcass. It is calculated by using several factors including 1) fat thickness, 2)

kidney, pelvic and heart fat. 3) hot carcass weight 4) rib eye area. A (-) EPD is better.

Marbling (MRB) marbling score.

Indexes: The last two columns in the EPD section are fairly new to the Simmental breed, but interesting, they are \$ indexes. Though EPD's allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes blend EPD's & economics to estimate an animal's overall impact on your bottom line.

All Purpose Index: (API) It is exactly what it says, all purpose.

This index includes every trait that can be calculated: calving ease, pounds at weaning and yearling, keeping replacements back, milking ability and stayability, then the calf crop. It took into consideration, some being retained as replacements, then the rest being fed out and sold grade and yield.

Terminal Index (TI): This index is to be used if all calves are going to a feedlot. It evaluates a sire only for use on mature cows with all calves put on feed and sold grade and yield. No other factors were figured in.

Using API and TI: First determine which index to use. If you're breeding heifers and keeping replacements, use API. If all calves are going to the feedlot and finished, use TI.

20	50	25	20	20	10	50	30	25	25	25	55	30	10	15

Homo Polled. An ET son out of Zenith and our donor cow T37. This mating combines two very valuable cows in our herd. 87U, the dam of Zenith has been a prolific egg producer and T37 has as much thickness and volume as you'll want. She's one of the best looking Shear Force daughters you'll find.

2 WS D4 Red PB SM

20	50	25	20	20	10	50	30	25	25	50	55	5	15	25

Homo Polled. Full brother to Lot #1. This bull is massive. We know his birth weight is bigger, but he was raised by a 10 year old recip cow who had not had a calf in a year and a half. EPDs show he shouldn't calve hard. He will add maternal, thickness and volume.

10	3	10	15	20	25	5	2	30	90	10	90	70	2	1

Genomically Enhanced EPDs. Homo Polled. Herd sire prospect. This guy was one of the most talked about calves in the pasture this summer. It will be hard to find a Red SimAngus with the birth to yearling spread along with the set of numbers that he has. Dam is a beautiful Prime Beef daughter with a great udder and disposition.

Homo Polled. This bull just gets better every day. He's moderate framed and long as a train. He has excelled in many areas and is tied for #1 in ADG. He is sired by the \$100,000 Takeback bull that topped the Ludvigson sale in 2015. Disposition is excellent. Dam is a big, gentle Rushmore daughter out of one of our best Beef Maker cows.

Genomically Enhanced EPDs. Hetero Black & Homo Polled.

WS Dominion is our pick of the B38 ET calves to keep as a Herd Sire prospect. The bull just does so many things well. Phenomenal performance, a great EPD profile, exceptional carcass, and an outcross pedigree that will allow us to use him on almost any cow in our herd, red or black. We feel his picture says it all, and you can't help but be impressed when you get behind him. Be sure to consider his ET brothers. There is not a poor one in the bunch. They sell as Lots 20, 49, 51, & 52.

Notes

For Sale By Private Treaty

35 Polled, Red and Black Bred Heifers

- Including several ET full sisters.
- Due to calve starting March 1st.
- Carrying the service of WS Prime Time, W/C Executive Order, CDI Ace, BCLR Wide Load, and more!
- Priced individually, gate run, or all to go.

For pricing or additional questions, please contact Terry at 701-320-2171
