# Welcome & Thank You

For your interest in the 22nd annual

## BREEDING FOR THE FUTURE PRODUCTION SALE!

There has been much that has been said about this past year, with all of its difficulties & challenges. Therefore, I will try not to dwell on those or be negative (It tends to be a weakness of mine). If you are studying our bull lineup, undoubtedly, you are a survivor.

This year's bull offering is the cream of a crop of over 160 bull calves born, in the spring of 2019. They have separated themselves. Some have excelled with indexes, never before, seen in our herd. They, too, are true survivors.

Due to the extreme wet conditions this past fall, our weaning was extremely late. We weaned 60 days past when we worked & weighed the calves (the middle of September). Usually we wean within 2 to 3 weeks after being worked. The effect was that our gains during that period, were minimal, affecting our yearling weights, significantly. We consider the yearling weights to be of little genetic value because, historically, our ADG's and yearling weight calculations are included during this period of time.

To help discern the true genetic value of the bulls in the sale, genomic testing has been completed on EVERY bull. Genomics are proving to be increasingly more reliable as additional data is submitted into the system. Genomic testing confirms correct pedigrees on each bull.

Furthermore, we have incorporated valuable data from the new & innovative RightMate system. RightMate provides improved buying confidence with greater genomic ASSURANCE when choosing bulls that will be the best fit for YOUR cowherd. Refer to page 9 for information on how RightMate works. Feel free to call us, if you have any questions.

Included in this sale are the first sons of WS Proclamation and KBHR Sniper. These two young bulls have created a lot of excitement, as their genetic value continues to rise.

Ranch visitors are welcome to view the sale bulls, their dams, siblings and our herd sires. Plus, you will receive \$100 off of a sale day purchase for viewing the bulls, prior to the sale, at our ranch.

Sale day, Breakfast Burritos & Refreshments will be served after 9:15am. Be sure to enjoy a Hearty BEEF Meal, served 11:30am – 1:00pm.

We trust this coming year will be a blessed, healthy and safe one for you and the ones you love.

## ANNOUNCEMENTS

### ***Please register for a bidding number prior to the sale!***

- Announcements made sale day and from the auction block during the sale, take precedence over printed material associated with this sale.
- Wilkinson Farms Simmentals retains 1/3 semen interest on every bull in the 2020 offering, unless otherwise stated in the individual comments or from the sale block. If semen sales are made, the new bull owner will receive payment for sold semen on their bull after expenses are covered. We reserve the right to charge sales fees/expenses for semen sold on said bull. The action of purchasing a bull from Wilkinson Farms Simmentals by auction, or on the farm, will assume buyer agrees to these terms. The above listed terms are negotiable, but must be agreed upon verbally or in writing, no later than 2 hours prior to the sale. Please contact us as soon as possible, to make arrangements.
- All cattle sell under the terms and conditions of the American Simmental Association.
- Any cattle going to CANADA will be delivered to the nearest ND/CAN border crossing facility. All costs for testing & export are the responsibility of the buyer.

## LIABILITY

Any person attending the sale does so at his/her own risk. Neither the sale management, owners, sale facility owners nor any person connected with this sale, assumes any liability, legal or otherwise.

## BREEDING FOR THE FUTURE ADVANTAGE

- Feed bulls until April 1st or when we start delivering bulls. After April 1st, we will charge \$2/day for each animal.
- Test all bulls and guarantee their soundness at delivery.
- Free bull delivery within the state of ND and up to 200 miles from our ranch to SD & MN.
- We ultrasound all bulls and all replacement females.
- Wilkinson Farms now has data for their entire herd with 21 years of ultrasound history.
- 5% discount on the purchase of 5 or more bulls.

We encourage farm visits, at your convenience. Come to view our sale offering at the Ranch and get a \$100 discount off of a Sale Day Purchase [BULLS ONLY]. We hope to see many of you at the ranch!

## SALE DAY LOCATION C-B SALE FACILITY

- WFS Ranch:** From Hwy 281, turn west (on gravel) at the Montpelier sign for 6 1/2 miles on 49th St. SE. Turn right (north) onto our 1/2 mile, L-shaped driveway. From west I 94: Take exit 248, then right to follow the south paved frontage road to the west until it takes a sharp left. Go south 11 miles. When the pavement ends & turns into gravel, continue south for 2 miles to the intersection of 73rd Ave SE & 49th St. SE. Turn left & go 3 1/2 miles. Turn north [left] at our mail on our driveway to the ranch.
- C-B Sale Facility: On sale day:** From Gackle – 13 miles east on ND Hwy 46 to 76th Ave SE & north 3/4 mile. OR 7 1/2 miles west of the Junction of Hwy 281 & Hwy 46, north 3/4 mile & right to the C-B Sale Facility.
- SALE LOCATION ADDRESS: 5314 76<sup>TH</sup> AVE SE, JUD, ND**

## COMPLIMENTARY SALE DAY MEALS

- Breakfast Burritos & refreshments will be available after 9:15am, for those coming early to view the cattle.
- A hearty Noon Meal is served from 11:30am-1pm

## IN CASE OF STORMY WEATHER:

Visit our Wilkinson Farms Simmentals Facebook page, listen to KSJB 600 am radio or call the Sale Day Phone numbers [listed on top of this page].

## BELOW IS A QUICK REFERENCE TO AN EXPLANATION OF EPD'S:

Expected Progeny Differences "EPD's" are the most accurate and effective tool available for comparing genetic levels. In using the EPD differences between two sires EPD's represents the unit difference expected in the performance of their progeny. (Listed below are the units ASA EPD's are expressed in).

(Average EPD's are on the bottom of the percentile table above )

**Calving Ease (CE)** percentage of unassisted births when used on heifers.

**Birth Weight (BW)** pounds of birth weight.

**Weaning Weight (WW)** pounds of weaning weight.

**Yearling Weight (YW)** pounds of yearling weight.

**Maternal Calving Ease (MCE)** percentage of unassisted births in first-calving daughters.

**Maternal Milk (MM)** pounds of weaning weight due to milk.

**Maternal Weaning Weight (MWW)** pounds of weaning weight due to milk and growth.

**Stayability (Stay)** percent of daughters remaining in the cowherd at 6 years of age.

**Carcass Weight (CW)** pounds of carcass weight.

**Yield Grade (YG)** yield grade score.

Yield grade is an indication of the yield of red meat within a carcass. It is calculated by using several factors including 1) fat thickness, 2)

kidney, pelvic and heart fat. 3) hot carcass weight 4) rib eye area. A (-) EPD is better.

**Marbling (MRB)** marbling score.

**Indexes:** The last two columns in the EPD section are fairly new to the Simmental breed, but interesting, they are \$ indexes. Though EPD's allow for the comparison of genetic levels for many economically important traits, they only provide a piece of the economic puzzle. That's where \$ indexes blend EPD's & economics to estimate an animal's overall impact on your bottom line.

**All Purpose Index: (API)** It is exactly what it says, all purpose.

This index includes every trait that can be calculated: calving ease, pounds at weaning and yearling, keeping replacements back, milking ability and stayability, then the calf crop. It took into consideration, some being retained as replacements, then the rest being fed out and sold grade and yield.

**Terminal Index (TI):** This index is to be used if all calves are going to a feedlot. It evaluates a sire only for use on mature cows with all calves put on feed and sold grade and yield. No other factors were figured in.

**Using API and TI:** First determine which index to use. If you're breeding heifers and keeping replacements, use API. If all calves are going to the feedlot and finished, use TI.

# Schlenker Family

Terry & Cathy Schlenker celebrated 42 years of marriage in July 2019. Together they have 11 children, 6 bonus kids, and 13 grandchildren (with one more on the way).

Schlenker Siblings 2019 -L to R:  
Simeon (19), Garnet (15), Aaron (38), Cassia (25), Jordan (34),  
Monica (30), Jared (32), Makayla (36), Micah (23), Amber (27)  
& Ethan (20).

Aaron & Randi Schlenker  
with their three sons:  
Dawson (4), Quinn (3) and  
Creed (1).

Jordan & Susan  
Schlenker with their two  
children: Alaura (3) &  
Joshua (1).

David & Makayla (Schlenker) Ross with  
their two girls: Neva (3) & Selah (1), and  
baby girl #3 coming in June 2020.

# Highlights

Jared Schlenker with his two kids:  
Oakley (7) & Adelaide (5).

Mike & Amber (Schlenker) Michalak and their  
two blessings: Myles (2) & Mercedes (1).

Micah & Megan with their spunky, smiley son,  
Mason (2).

Schlenker Men

Schlenker Women

Ethan & Nichole with their 10-month-old, bright-  
eyed boy, Casyn.

Better genetics are being rewarded in marketplaces all over this nation. Choosing great genetics from herds associated with Allied Genetic Resources puts you the position to take advantages of these opportunities and so many more as we look toward the future. The Allied logo stands for quality, it stands for commitment to the future and it means that you can expect the very best in customer services, year after year. There is no room in the future of the beef business for average genetics and no producer should settle for less than profit improvement with each new set of bulls and each new generation.

Once you have made the choice to use genetics backed by the industry leading herds using the Allied logo, take the next step and look to Allied for services. Our growing list of feeder cattle marketing specialists are there to help produce more dollars for loads of calves that deserve them. Our consulting services too are available as you navigate a world with ever more advanced genetic tools for selection and progress. Regardless of your specific needs, when it comes to genetics for the future, we simply offer more. This year our members will market nearly 10,000 commercially focused bulls, all from the 26 states that they call home. The Allied program is backed by a national presence, but is based on a locally produced and serviced product from the very best and most experienced group of independent seedstock producers. Contact any one of our service oriented staff to learn more about the value proposition offered by Allied and the producers that own it. [www.alliedgeneticresources.com](http://www.alliedgeneticresources.com)

### **MAKE BULL BUYING EASY**

No cost genetic procurement is one of the great services offered by our team of experienced representatives. Call today for more details and a simpler 2020.

# Improved Buying Confidence with Greater Genomic **ASSURANCE**

Access to more and better information has always been key to making wise decisions. The evolution and improvement of genetic evaluation tools too has given us an ever-clearer picture of the true genetic makeup of cattle and thus a better view of the value proposition. RightMate, powered by Top Genomics LLC is taking the evaluation of genetics and genomics one giant step further. By combining specific genomic information with the long-proven value of EPDs, this new advancement in technology improves our depth and precision when evaluating the actual ability to transmit value and profit.

The 3 Accreditation Logos below are designed to simplify bull selection and improve buyer confidence by more accurately describing the genetics offered and by reducing risk. What this means to you as a customer is a much greater assurance that you are getting both what you want and need from the genetics you purchase. What it means to your seedstock provider is access to RightMate technology that simply sets them apart from the rest of the industry.

**ACCREDITED CALVING EASE** – Simply find bulls with the ACE logo for third party Accredited, secure Calving Ease bulls. Though we have had tools in the past to assist in choosing heifer bulls, we've never had one nearly this effective. The reduced risk that comes with this genomic certification will simply make your decisions easier and your heifer calving season more successful. Purchase special purpose ACE bulls with confidence. They will deliver consistent and predictable calving ease.

**ACCREDITED TERMINAL MATE** – Just like an ATM machine makes it simpler to access your cash, the ATM Logo highlights bulls accredited to generate extra cash income as soon as your next calf crop! These bulls are meant specifically to use only on mature cows and for the purpose of adding performance, pay weight and end product value to market.

**ACCREDITED GENOMIC PLUS** – For the majority of producers who simply need consistent and balanced genetic improvement, without genomic setbacks, G+ Accredited bulls should be on your list for premium purchase. These sires will absolutely move you forward for both cost reduction and income producing traits and substantially reduce risk when compared to all other evaluation programs. It's simple, the right genes are in these bulls to help secure a profitable future and they have great EPDs to match!

MARTY ROPP 406-581-7835

**RightMate**  
powered by TOP GENOMICS

All Aboard has become the most used red bull in the Simmental breed. He does so many things well. From calving, through carcass, his genetic value has skyrocketed. Semen is available through Genex.

Not only has Sniper cemented himself as the go-to red, calving ease bull, but his calves grow too. He is one of the biggest spread bulls in the breed. From -4 BW EPD to a 116 YW EPD. 15 of his 17 EPDs are in the top 25% of the breed, with 9 in the top 10%. Even as a calving ease bull, his calves have a little more frame and plenty of rib. Semen available through Wilkinson Farms and Keller Broken Heart Ranch.

•GE EPDs •Homo Polled •Herdsire prospect. •150K Enhanced EPDs

When I mated Emotion to Sniper, I was hoping for a red calving ease bull with some growth and she delivered! "WS IMPRINT 40G" offers countless breeding options and is backed by one of our most longevity inclined cow families (the K60 cow line) known for great feet, moderate frames, body capacity, milking and fertility. Imprint's EPD profile is one tough to match with 9 in the TOP 4%, and 15 in the TOP 25%. In the pen you'll find a dark red bull confident in himself. Though his clean front and tight sheath could put him in the show ring he still looks like a cowboy's bull with his bold middle and extra bone. An impressive performance slash-line of 103/122/115 put him #1 in his group for growth both in WW and YW! Numbers don't lie, and expect him to catch your eye, on sale day!

Empire was our pick at the 2018 "Bred for Balance" sale, where he tied for being the high selling red bull. His combination of length and depth is one of the most impressive we have seen to date. He has a big hind quarter and wide top, packaged in a moderate frame, which he consistently stamps on his calves. All of these traits along with his exceptional growth are reasons why we love this bull, but what really got our attention was his carcass. He has a 152 index on IMF and a 114 index on REA.

We will have a larger number of his offspring born this year and look forward to being able to feature more of his sons in our 2021 sale.

**•GE EPDs •Homo Polled**

•HSF Conquest is a bull we used for a little different pedigree and we really like what we see.  
•This calf is no exception-along with his big quarter, wide top, and long side he is also very smooth made which makes for a pretty attractive bull.

His dam has a 107 WW index on her first two calves.

To go with it he also has some pretty nice calving ease and growth numbers which should translate to good weights in the fall.

**•GE EPDs •Homo Polled**

This is a really classy son of Power Grid.

He has the look. With his high held high, his stride is that of a king.

He is free moving, and has a very attractive look and build.

Nice quarter, and just the right depth and length with the soft top.

Along with it his growth numbers aren't half bad, and he has a nice carcass scan to go with it.

## •GE EPDs •Homo Polled &amp; Homo Black

One of my personal favorites all year! He, as all the Proclamation's have been -a no fear/ curious type of calf- and quickly became a favored pet last spring. Of course it didn't hurt he stood out as a growthy little bugger with some eye appeal! He hasn't changed much in that way and now is a bull with an amazing EPD profile! 11 in the TOP 10% and 14 in the TOP 25%! His Dam "Zarzaparilla" has been our most reliable MB influencing cow in the herd! Also her daughters are quickly establishing themselves as top end producers! Full brother to Lot 39.

A flush brother to Lot 38, with added size. These Proclamation calves have a confident presence about them yet possess super personalities! Serious herd-building cow makers stacking Zarzaparilla and Proclamation! Raised by one of our commercial cows on a little different management program so no WW taken. #1 MILK EPD in the entire sale at 45 MM!

There is some power in his pedigree but the genomic test really smiled on this guy boosting his already impressive growth numbers into the 1%! His dam is a maternal sister to WS Night Dreams D191 (owned by Stavick Simmentals) producing bar-raising bulls -and yet another bull calf on the ground- returning \$23,500 with her first two bulls including last year's sale topper!

The only baldy bull in the sale. Going back to Zarzaparrilla. He is one of the most solid carcass based bulls in the offering. With a 151 MB index, a near-perfect blaze and backed by great udders and second-to-none dispositions, I look forward to seeing where this guy goes to make herd-defining females! Keep every daughter! Dam has a flush sister working for Doll Simmentals at a high level!

A faint, artistic background image of a herd of horses in a field, overlaid with horizontal ruling lines. The image is a watercolor-style illustration of a herd of horses in a field, with some horses in the foreground and others in the background. The image is overlaid with horizontal ruling lines, which are evenly spaced and extend across the width of the page. The overall color palette is soft and muted, with various shades of brown, tan, and cream. The horses are depicted in various poses, some facing forward and others in profile. The background shows a field with some trees in the distance. The ruling lines are a light gray color, providing a subtle guide for writing.
